

TikTok & Children

Monday 8 May 2023
0900-1610 hrs GMT+8

The TikTok Cultures Research Network holds its seventh virtual event **TikTok & Children Symposium** on 8 May 2023. This Symposium is held in collaboration with the Australian Research Council Centre of Excellence for the Digital Child and organised by Prof Crystal Abidin, Dr Jin Lee, and Prof Tama Leaver.

In response to the potentials and pitfalls in children’s use of TikTok, this one-day online Symposium will discuss crucial issues to understanding children’s rights on TikTok and examining their wellbeing and safety on the platform. The Symposium will showcase the emergent research on characteristics, climate, concerns, and chances of children growing up with and on TikTok, and discuss these issues with the industry and TikTok studies scholars. The event features a conversation with TikTok, and an academic round table with leading ECR scholars on TikTok, moderated by Prof Crystal Abidin.
